Ref: FCC Class II Permissive change for FCC ID: YJKHRA550FS
(Original Grant date:08/05/2011)
Applicant: Dr. Johannes Heidenhain GmbH

Dear Examiner,

This is to request a Class II permissive change for FCC ID:YJKHRA550FS, originally granted on 08/05/2011.

The major change filed under this application is:

The EUT is now re-designed with another PCB-antenna and a pin-diode-switch for an additional radiation plane for a better transmission. All other devices are in position and value identical. The transmission power is switched between the two integrated antennas. Due to the antenna switch the output power is assumed to be less. The second antenna is folded F-antenna (GF) with less antenna gain as the already tested F-antenna.

If you have any questions regarding this application, please feel free to contact me.

Sincerely,

Mr. Thomas Ring
